

We are a professional salon that is home based in a new private estate with ample driveway parking—we are trained to the highest standard and our certificates of training along with our public liability insurance certification is displayed prominently in the salon.

We are a busy unisex salon and pride ourselves in our professional discretion and highly tuned skills and our drive to keep up to date with all the developments in the Esthetic and Beauty world.

By using superior waxing and beauty products we have a extremely high return rate of clientele as we wish their waxing and beauty experience to be above and beyond the rest!

WAXES AND PRODUCTS WE USE AT THE WAX FACTOR

We use Perron Rigot Waxes as used by Kim Lawless, the UK Wax Queen who has trained The Wax Factor Staff in all male and female waxing techniques

Hot Wax is more comfortable than strip wax as it shrink wraps the hair when applied (not the skin!) and it is 50% more comfortable than using strip wax

At The Wax Factor we use Hot Wax on all areas with the exception of legs, arms, chest and back where we use strip as these skin areas react better to waxing!

We use Perron Rigot pre and post oils & cleansers & also add Australian Bodycare Tea Tree Lotion which is also a premium product but this product is super soothing plus also prevents Ingrown hairs post waxing—this item is also for sale in The Wax Factor Home Salon and is highly recommended.

PRE WAXING CARE

- Hair must be the length of a grain of rice to be waxed
- Please shower before waxing and exfoliate the area to be waxed to release any ingrown hairs
- Please bring loose fitting clothes to wear post waxing
- Many clients take painkillers 30 mins before being waxed—please consult a medical practitioner before taking any medication
- And finally Relax!! It's just wax!!!!

FEMALE WAXING
